PLC-Production Plakat II

Poster paper, bright white coated

Product description:

High resolution inkjet special paper for high resolution poster and presentation prints with perfect colour reproduction. Short drying time and good flatness. The backside is blue coloured to avoid translucency

Specific feature:

PLC-Production poster is a white matt waterresistant paper for inside outside POS applications. The one-sided Inkjet coating makes a high resolution and color brilliance possible of the expressions. Therefore this special paper is recommended for the output of high quality presentation plots with high resolution up to 1440 dpi.

Processing:

For optimal printing results the paper must be calibrated beforehand on the printers and with the inks to be used. Without calibration, color modifications can occur. For quality reasons, the processing and storage should take place in a climate of approximately 50% relative humidity and at a temperature of 10-30°C. Store in the original package in a cool, dry place, clean and dust free.
